# INTRODUCTION/AVANT-PROPOS

## ACKNOWLEDGMENTS

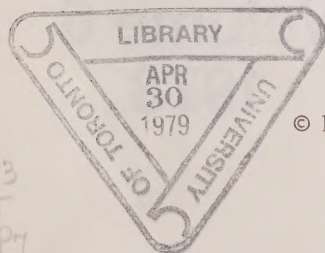

The currency and coverage of the ProFile service depends largely upon the efforts of the individuals within each jurisdiction who forward new publications to the publisher for indexing and microfilming. We are grateful to these persons for their assistance.

All publications included in ProFile are copyright by the official printers of the jurisdictions covered, and are reproduced with the permission of these agencies.

## MICROFICHE SUBSCRIPTION PLANS AVAILABLE

Plan number	Description
1	Complete collection
2	Regional Alberta and North Atlantic Provinces British Columbia Manitoba-Saskatchewan Ontario Quebec
3	Subject collections Agriculture Cultural Affairs Economy Education Environment & Natural Resources Health Justice Local Government Planning & Settlement Provincial Government Science & Technology Social Affairs Transportation & Communication

Any publication listed in the  
Index is available on microfiche  
or paper from Micromedia Limited

Printed in Canada

## REMERCIEMENTS

La précision, la fidélité et l'utilité des renseignements que permet d'obtenir le service ProFile dépendent pour une grande part des efforts des personnes qui, dans chaque juridiction, envoient à l'éditeur de nouvelles publications pour être mises à l'index et sur microfiches. Nous leur exprimons notre reconnaissance pour l'assistance qu'elles nous apportent.

Les éditeurs officiels des juridictions impliquées détiennent les droits de reproduction réservés pour toutes les publications figurant à l'index ProFile et celles-ci sont reproduites avec l'autorisation de ces agences.

## PLANS D'ABONNEMENT MICROFICHE DISPONIBLES

Plan numéro	Description
1	Collection complète
2	Régional Alberta & Nord Columbia-Britannique Manitoba-Saskatchewan Provinces atlantiques Ontario Québec
3	Collections de sujets Agriculture Affaires culturelles Economie Education Environnement et ressources naturelles Santé Justice Gouvernement Municipal Planification et colonisation Gouvernement provincial Sciences et technologie Affaires sociales Transports et communications

## THE PROFILE SERVICE

### What is ProFile?

ProFile is a subscription service to the current publications of the following Canadian provinces, and territories.

Alberta  
British Columbia  
Manitoba  
New Brunswick  
Newfoundland  
Nova Scotia  
Ontario  
Prince Edward Island\*  
Quebec  
Saskatchewan  
Northwest Territories  
Yukon Territory

These publications are issued monthly on microfiche, accompanied by the ProFile Index, which lists the publications included in the service by author, subject and title.

There are actually two services provided by ProFile:

- The *ProFile Index* is a bibliographic reference tool covering Canadian provincial government publications of significant reference value.
- The *ProFile* document delivery service gathers together and releases on microfilm for general use a significant body of provincial government publications which are otherwise available only through a wide variety of issuing agencies, often in limited quantities.

All documents included in the *ProFile* microfiche service are also available from Micromedia Limited in paper copy (xerographic reprints) and a price (based on a per-page copying charge) is indicated to this effect in each entry. Your library may have a subscription to the *ProFile Index* only, and not to the microfiche service. Or perhaps it receives only one of our many subject microfiche collections. If you require the microfiche of a particular publication cited in the *Index*, or would prefer to have it in paper copy, consult your librarian.

\*Copyright clearance for the publications of this jurisdiction is still under consideration; these will be included if as and when this clearance is received.

## LE SERVICE PROFILE

### Qu'est-ce que ProFile?

ProFile représente un service d'abonnement aux publications courantes des provinces et territoires suivantes:

Alberta  
Colombie-Britannique  
Île-du-Prince-Édouard\*  
Manitoba  
Nouveau-Brunswick  
Nouvelle-Écosse  
Ontario  
Québec  
Saskatchewan  
Terre-Neuve  
Territoires du  
nord-ouest  
Territoire Yukon

Ces publications sont distribuées aux souscripteurs tous les mois sur microfiches, accompagnées par l'*Index ProFile*, qui contiendra les publications comprises dans le service par auteur, sujet et titre.

*ProFile* offre en réalité deux services:

- L'*Index ProFile* est un outil de référence bibliographique couvrant les publications des gouvernements provinciaux canadiens, d'une valeur considérable en tant que référence.
- Le service de livraison de documents *ProFile* rassemble et publie à l'intention du grand public, un recueil important de documents provinciaux qui, d'autre part, n'étaient disponibles qu'en quantités limitées par l'entremise d'une grande variété d'agences de publication. Ces publications sont:

Tous les documents inclus dans le service de microfiches de *ProFile* sont aussi disponibles chez Micromedia sous forme de copies sur papier (réimpression xérographique) et un prix (basé sur des frais de copie par page) est indiqué à cet effet à chaque entrée. Votre bibliothèque est peut-être abonnée à l'*Index ProFile* seulement, et non au service de microfiches. Ou bien, elle ne reçoit peut-être qu'une seule de nos collections de microfiches sur de nombreux sujets. Si vous avez besoin de la microfiche d'une publication particulière citée dans l'*Index*, ou si vous préférez l'avoir sous forme de copies sur papier, consultez votre bibliothécaire.

\*La permission pour la reproduction des publications de ces juridictions est sous étude; celles-ci seront incorporées au fur et à mesure que la permission est accordée.

## Types of Publication Included in ProFile

The service does not include every publication issued by these governments. To do so would place the price and volume of the service beyond the means and interests of most subscribers. Instead, an effort is made to select from the large numbers of publications issued only those that are of general, lasting reference value.

Only publications issued after January 1, 1973 qualify for inclusion.

### *Serials*

Annual reports  
Bibliographic aids  
Budget statements  
Estimates  
Public accounts  
Statistical summaries

### *Monographs*

Board, Committee,  
Commission reports  
Organization manuals,  
directories  
Planning reports of  
general interest  
Research studies  
Royal commission reports  
and studies

## Types of Publication Excluded from ProFile

Gazettes	Regular periodicals (newsletters, bulletins, journals, weekly or monthly statistical reports)
Hansards	
Journals	
Minutes	Decisions of courts and administrative tribunals
Statutes	
Bylaws	General information pieces (e.g. <i>Prevention of the Budworm</i> , or <i>Management Courses Offered by Community Colleges</i> )
Regulations	Publications aimed at a local or specialised audience (e.g. Department of Education course outlines; geological surveys of local areas; minor planning studies)
Ephemera	Public relations publications
Maps	

As a rule, excluded publications are:

- readily available (and in many cases preferable to have) on paper by current subscription or through mailing lists.
- general information available elsewhere.
- of highly specialised or local interest.
- ephemeral

## Genres de publications incorporées par ProFile

Le service ne comprend pas tous les documents publiés par ces juridictions. Pour réaliser ceci, le coût et le volume de service seraient trop élevés et peu intéressants pour la plupart des souscripteurs. Nous nous efforçons de choisir des publications qui représentent des pièces de référence de valeur durable.

Seulement les publications qui paraîtront à partir du 1er janvier 1973 font partie du service.

### *De séries*

Rapports annuels  
Auxiliaires bibliographiques  
Relevés de budget  
Estimations  
Comptes publics  
Résumés statistiques

### *Monographies*

Rapports des Conseils,  
Comités et Commissions  
Plans officiels  
Manuels d'organisation  
et répertoires  
Rapports de planification  
d'intérêt général  
Etudes de recherches  
Rapports et études  
de la Commission  
Royale

## Genres de publications exclues

Gazettes	Publications périodiques (nouvelles, bulletins, journaux ou rapports statistiques mensuels ou hebdomadaires)
Comptes-rendus (Hansards)	Décisions des tribunaux administratifs
Journaux	Pièces d'information courante (c.à.d. <i>Cours Administratifs offerts par les CEGEP's</i> )
Minutes	
Statuts	Publications à l'attention d'un public local ou spécialisé (c.à.d. détails sur les cours du Ministère de l'Éducation; recherches géologiques dans les régions locales; études de planification mineures)
Arrêtés	
Règlements	
Ephémèra	
Cartes	

En règle générale, les publications non incorporées sont les suivantes:

- Celles facilement disponibles (et dans plusieurs cas qu'il est préférable d'avoir) sur papier grâce à un abonnement courant ou par service postal
- Les informations d'ordre général disponibles auprès d'autres sources
- Celles couvrant des sujets spécialisés ou d'intérêt local
- De nature éphémère

## Government Bodies Covered

Generally, the service covers the publications of all departments, ministries, boards, branches, committees and commissions reporting *directly* to the governments listed above.

Not included are the publications of boards of education or other bodies which, although they may be funded by the governments concerned, report to a board of directors or other independently elected officials, and as such are not directly responsible to the governments covered.

## Currency

Every attempt is made to minimize the time lapse between the issuance of a publication and its appearance in ProFile. On the average, documents should appear in the Index about two months after their publication date.

## HOW TO USE THE PROFILE INDEX

Utilizing advanced data base publishing techniques, the *ProFile Index* is issued in a monthly looseleaf format with an annual cloth-bound cumulation and is fully bilingual. The *Index* is divided into three parts: Bibliographic Section, Subject and Name Index and Title Index.

### Bibliographic section

This, the primary section of the *Index*, lists all publications by corporate author, arranged in alphabetic and numeric sequence. Each document included in the *ProFile Index* is computer-assigned a unique four-digit document number. This acts only as a location device providing access from both the Subject and Name Index and the Title Index to the Bibliographic Section; it serves no other function. Only in this part of the *Index* will the user find full bibliographic information including the following: corporate author; series title; title; place and date of publication; collation; notes providing fuller details; microfiche accession number; number of fiche; and paper copy price (xerographic reprints).

## Corps gouvernementaux auxquels s'adresse ce service

Ce service est réservé aux publications de tous les services, ministères, conseils, directions, comités, et commissions qui rendent compte directement aux gouvernements figurant sur la liste ci-dessus.

Ne sont pas incluses les publications des commissions scolaires, des corporations de la couronne, ou autres corps qui, bien que pouvant être financées par les gouvernements intéressés, rendent compte à des conseils d'administration ou autres fonctionnaires élus de façon indépendante, et qui, de ce fait, ne sont pas directement soumis à l'autorité des gouvernements auxquels est réservé ce service.

## Parutions

Tout est mis en oeuvre pour minimiser le laps de temps entre la parution d'une publication et son inscription dans l'Index ProFile. Généralement, les documents apparaissent à l'Index environ deux mois après leur publication.

## COMMENT UTILISER L'INDEX PROFILE

Utilisant des techniques de publication de l'informatique moderne, l'*Index ProFile* est publié mensuellement en feuilles mobiles et en volume annuel relié de toile. Cet *Index* bilingue se divise en trois parties: Section bibliographique, Index des sujets et des noms et Index des titres.

### Section bibliographique

Cette section, qui est la principale de l'*Index* énumère toutes les publications par nom de la collectivité-auteur, par ordre alphabétique et par ordre numérique. Chaque document inclus dans l'*Index ProFile* est doté par l'ordinateur d'un numéro de document unique à quatre chiffres. C'est là uniquement une mesure de localisation assurant l'accès à la Section bibliographique, à la fois au départ de l'Index des sujets et des noms et de l'Index des titres; ce numéro n'a aucune autre fonction. C'est seulement dans cette partie de l'*Index* que l'utilisateur trouvera des renseignements bibliographiques complets, y compris les suivants: collectivité-auteur; titre de la série; titre; lieu et date de publication; collation; notes donnant des détails supplémentaires; numéro d'entrée de microfiche; numéro de fiche; et prix des copies sur papier (réimpression xérographique).

A Table of Contents is provided in each issue of the *Index*, indicating where publications of a particular branch, directorate or division can be located. This will aid the user in tracing down documents when only the subordinate body, and not the parent department or agency to which it reports, is known. In the Bibliographic Section all subordinate bodies appear in hierarchical display under the department through which they are responsible to the government.

### **Subject and Name Index**

Documents accorded full bibliographic treatment in the Bibliographic Section are analysed in the Subject and Name Index by subject, personal and non-governmental corporate name, name of government program or act and geographic area. Up to two subject levels are provided, where necessary, and full cross-referencing facilitates access. This section of the *Index* is also fully bilingual with French and English subject headings and names interfiled alphabetically. Entries are displayed by title only or, in some cases, annotated title. Reference to the Bibliographic Section where full information is provided (including corporate author and microfiche accession number), is supplied by the document number.

### **Title Index**

As a further point of access most documents are displayed alphabetically by title. Where applicable, abbreviated titles will be used for certain documents. Documents not having easily identifiable or unique titles (e.g. annual reports) do not appear in this section. As in the Subject and Name Index reference to the Bibliographic Section is by document number.

### **Language**

The language of any publication included in ProFile is that of the original publication, be it English or French. If publications are issued in two separate language editions, both will be included, on the same fiche if possible. The language in which a publication is shown in the Bibliographic Section is that of the original publication. Bilingual publications are listed in both languages, in two separate entries. The Subject Index also uses the language of publication as the subject heading.

Chaque numéro de l'*Index* comporte une Table des matières indiquant où l'on peut trouver les publications d'une certaine direction ou d'une certaine division. Cela aidera l'utilisateur à localiser les documents, même s'il ne connaît que l'organisme subordonné, et non le ministère ou l'agence-mère sous les ordres duquel ou de laquelle il opère. Dans la Section bibliographique, tous les organismes subordonnés figurent par ordre hiérarchique sous le ministère par l'entremise duquel ils sont responsables envers le gouvernement.

### **Index des sujets et des noms**

Les documents qui font l'objet d'une présentation bibliographique complète dans la Section bibliographique sont analysés dans l'Index des sujets et des noms par sujets, nom personnel et collectif non gouvernementale, nom du programme gouvernemental ou de la loi et région géographique. On donne jusqu'à deux niveaux de matières en cas de besoin, et les renvois d'orientation complets en facilitent l'accès. De plus, cette section de l'*Index* est entièrement bilingue, et les titres de matières et les noms en français et en anglais sont interclassés par ordre alphabétique. Les entrées sont indiquées par le titre seulement ou, dans certains cas, par le titre annoté. Dans les cas où des renseignements complets sont données (y compris la collectivité-auteur et le numéro d'entrée de microfiche) le renvoi à la Section bibliographique est donné par le numéro du document.

### **Index des titres**

Comme autre point d'accès, la plupart des documents sont présentés par titres, par ordre alphabétique. Le cas échéant, on utilisera des titres abrégés pour certains documents. Les documents qui n'ont pas un titre facile à identifier ou particulier (p. ex. les rapports annuels) ne figurent pas dans cette section. Comme c'est le cas pour l'Index des sujets et des noms, le renvoi à la Section bibliographique se fait par numéro de document.

### **Langue**

La langue des publications figurant dans l'index est celle de la publication originale, que ce soit l'anglais ou le français. Si les publications sont éditées en deux versions linguistiques distinctes, toutes deux seront, si possible, comprises sur la même fiche. La langue de la publication figurant dans la Section bibliographique est celle de la publication originale. Les publications bilingues sont inscrites dans les deux langues. L'index des sujets utilise aussi la langue de la publication comme titre de matière.
